SUMMARY

Full stack developer with a solid background in Biomedical Sciences and a demonstrated ability to quickly adapt to new technologies. Proven track record of being an enthusiastic learner and optimistic problem solver. Seeking to gain experience and build a reputation as a dependable and trustworthy professional in the field.

TECHNICAL SKILLS

Front-end Development: HTML, CSS, JavaScript, React, and third-party APIs such as jQuery and Bootstrap.

Back-end Development: Server-side technologies such as Node.js, and Express.js, Database management systems such as MySQL and MongoDB, as well as Object-relational mappers like Sequelize and Mongoose, familiarized with GraphQl, Object Oriented Programming and Model-View-Controller concepts and architecture, as well as the use of Agile methodology.

Development Tools: Experience using Git, unit testing using Jest, MERN stack, chatGPT, and familiarized with computer science concepts and the use of Heroku.

PROJECTS

**Anime Bootcamp | https://github.com/renfunny/anime-bootcamp |
https://anime-bootcamp.herokuapp.com**

- *A anime/manga library where users are able to create an account and save any anime/manga to their watchlist.*
- *Was responsible for fetching data from APIs and rendering it on the page, search functionality, code refactoring, and CSS editing.*
- *Used React, react-bootstrap, CSS, Node.js, Express.js, GraphQL, mongoose, and JWT.*

EXPERIENCE

Carver   **2017 - Present**
Copacabana   **Vaughan**, **ON**

- *Successfully worked with a team of 8-10 to serve an average of 400 customers a day.*
- *Communicated well with others to meet customers' demands.*
- *Demonstrated ability to quickly learn and perfect various carving methods.*
- *Trained new carvers by showing them how to skillfully use and sharpen a knife and how to efficiently serve a large number of customers at once.*
